

Homophone Flash Cards

This is a flash card deck for homophones. When you introduce vowel teams to your students, you will want to draw attention to homophones, words that sound the same like *main* and *mane*. You'll teach the meanings of words with vowel teams through the context of visuals with explicit instruction in homophone pairs. Many of these words are already part of students' oral language, so this guidance will deepen their understanding of the words.

Here is a routine you can use to explicitly teach homophone pairs. For example, with *peak* and *peek*, you can follow this routine:

- Say the word: *peak*
- Give the vowel team spelling: 'p', 'e', 'a', 'k'
- Use in context: *peak*, 'e-a', *peak*, the top of a mountain
- Picture or motion: show the picture of a mountain peak or use your hands to make a peak
